PROFESSIONAL EXPERIENCE

IT Business Analyst

Omayar – Software Solutions Company | Asaba, Nigeria

July 2021 – August 2024

- Acted as the primary liaison between business stakeholders and technical teams, gathering and documenting detailed business and functional requirements for software solutions
- Conducted comprehensive needs assessments and translated complex business requirements into clear technical specifications, user stories, and process workflows
- Led requirement workshops and stakeholder interviews to elicit, analyse, and validate business needs, ensuring alignment between client objectives and technical capabilities
- Developed detailed documentation, including business requirement documents (BRDs), functional requirement documents (FRDs), and process flow diagrams
- Facilitated user acceptance testing (UAT) and performed gap analysis to ensure deliverables met business expectations and quality standards

Software Engineer

Omayar – Software Solutions Company | Asaba, Nigeria

January 2020 – June 2021

- Designed, developed, and maintained scalable software solutions, applying technical knowledge to meet diverse client requirements
- Participated in requirements gathering sessions, working closely with clients to understand technical and functional needs
- Contributed to end-to-end product development cycles, from initial design through testing and deployment, ensuring adherence to quality standards

Software Engineer Intern

Comeriver | Ibadan, Nigeria

October 2018 - March 2019

- Collaborated with software engineering teams to design and develop customised web applications addressing specific business requirements
- Managed maintenance and updates for the Comeriver Music web application, ensuring optimal performance and user experience

- Organised and delivered training sessions to professionals and individuals on product utilisation, demonstrating strong communication and presentation skills

Corps Member - Quality Control Engineer

Suiming Electrical Limited | Asaba, Nigeria

November 2021 – November 2022

- Supervised the operation and maintenance of industrial equipment, ensuring consistent adherence to quality and regulatory standards
- Conducted quality assessments and implemented process improvements to enhance operational efficiency
- Trained junior colleagues on equipment operation, demonstrating mentorship and knowledge transfer capabilities

EDUCATION

MSc Software Engineering with Management Studies

Kingston University London | September 2025

B.Eng Electrical Electronic Engineering

Niger Delta University, Wilberforce Island | 2019
